STUDENT SUPPORTING COMMENTS

RECOMMEND CLASS

This course was very interesting because it taught me the basic principles of economics. Professor Adhia chose a very helpful text book and the online support mechanism was just an added bonus (although a little expensive).

SUGGESTED IMPROVEMENTS

I thought that Professor Adhia was always available to provide further assistance for any students that required and even dedicated a class before the exam to review material. My only suggestion for this course would be to perhaps keep the exams consistent with the kind of homework that we completed throughout the semester. Seeing multiple choice problems all throughout the course and then encountering none on the mid-term and other exams was a bit derailing. Other than that, it is a great course.

RECOMMEND CLASS

Very intellectual and fun course, even though required for my major, I enjoyed most of the content and the professor. Breaks are nice to have in the middle of each class.

SUGGESTED IMPROVEMENTS

Although helpful, the giving out of previous semester's exams are a little vague in terms of what is going to be on a test. Maybe a single outline or list of material that can possibly be on the test complete with previous semester's exam can help be more specific.

RECOMMEND CLASS

very fun and interesting. provides information from text book and applies it to real world situations.

SUGGESTED IMPROVEMENTS

sometimes the homework question were more difficult than anything we did in class so maybe just more examples or practice questions during the class that could help us do well on the homework

RECOMMEND CLASS

I recommend this course because economics is a subject that we all have to know even if it is a little bit. I register to this class knowing that in my school I have never learned of economics and by taking this class with professor Adhia I was able to understand each topic and learn. I feel that I had learned a lot this semester and I will like to continue learning more about economics.

SUGGESTED IMPROVEMENTS

I think that my professor could improve and help students by sending each week an email like reminding the students that he is always in the library during his office hours. I feel that Professor Adhia did an excellent job in this course because he was always there in the library if a student needed help.

RECOMMEND CLASS

He explains the material very simply and gives very relatable examples to help students understand the material like the back of their hand. Well rounded professor I am likely to recommend to other students.

SUGGESTED IMPROVEMENTS

The homework is very challenging compared to the classwork. I love the idea of the homework program apria however I don't think its a good idea to have students pay an additional roughly 200 dollars to complete the assignments. A free software where students can submit their answers would be ideal.

RECOMMEND CLASS

Professor Adhia is the greatest teacher at this college.

RECOMMEND CLASS

Professor is very engaging, funny and helpful

RECOMMEND CLASS

I thought the examples you used to explain the topics really made it make sense for me. Apria could be challenging at times but it was still a good way to learn the material. I liked how you didn't go to fast over the material. Sometimes the topics seemed a little dry but you made the most of it. I really enjoyed this class and will take more of yours in the future.

SUGGESTED IMPROVEMENTS

More videos hahaha... they help lighten the mood and material more because it gives you chance to stop taking notes and listening to you lecture.

RECOMMEND CLASS

The course was amazing. Professor Adhia did a good job going over the course and making each topic as clear and simple as possible. He funny and very understanding which are things you want in a professor. Overall awesome course no regrets.

SUGGESTED IMPROVEMENTS

No need. The course couldn't have been explained and taught better in my opinion.

RECOMMEND CLASS

This class provides a wide understanding of economics. The class is interesting and the professor makes it dynamic. He is very helpful and makes the class easier as well as entertaining.

RECOMMEND CLASS

Very straightforward and clear. Had fun learning microeconomics.

SUGGESTED IMPROVEMENTS

Thought it was all good

RECOMMEND CLASS

they way the class is taught you must keep up its a fast past class but you do learn a lot of valueable information

SUGGESTED IMPROVEMENTS

By doing more in class examples and less online that dont represent the exams.

RECOMMEND CLASS

It was a helpful course that i now understand more of. It's interesting and something people should learn in the future.

SUGGESTED IMPROVEMENTS

Not to much, helpful whenever we needed it

RECOMMEND CLASS

Well organized course that initiated critical thinking and informal understandings of primary economic concepts.
